

AICUP Member Preferred

The purpose of the AICUP Member Preferred program (AMP) is to provide Corporate Affiliates with an opportunity to offer pricing discounts and/or service enhancements to AICUP members without considering volume, leverage or aggregation that is necessary for an AICUP Endorsed Program.

Corporate Affiliates, through AMP, are able to submit preferred pricing/preferred service programs to the AICUP Member Services Committee for consideration.

The organic propagation of preferred pricing and terms for AICUP members will over time serve the membership well when services are not easily aggregated across the large geography of the Commonwealth. Multiple service providers within the same field of business can be accommodated without a winner takes all endorsement through an RFP.

Learn more about AMP by contacting Tim Alexander at tim.alexander@aicup.org or 717-232-8649, ext. 222.

MasterConcept Plan™

Kimmel Bogrette has recognized that AICUP Member Schools face a consistent challenge in reconciling campus needs with funding availability early in the project "lifecycle." In addition, in the ever more competitive world, these same schools need to go beyond just meeting the need, by using capital projects to help fulfill their institutional mission and build their unique brand of educating. To meet these challenge, Kimmel Bogrette has developed an approach called the "MasterConcept Plan™." It is the only fixed cost planning and design tool in the industry.

Our Approach:

MasterConcept Planning + Value-Added Design

Future proofing your facility's assets through mission-oriented, long-term planning that:

- **DOCUMENTS** short- and long-term goals.
- **IDENTIFIES** the variables and constraints presented by the buildings, lands and systems.
- **PROGRAMS** quantitative and qualitative functional needs in a phaseable format.
- **PROVIDES** practical solutions that serve the facility's needs and will be embraced by residents.
- **INCLUDES** detailed cost analyses, scheduling and phasing plans that create a roadmap and leave a legacy.

Student Financial Literacy

AICUP is working with the national not-for-profit American Student Assistance® (ASA) to bring SALT® to member institutions. SALT's neutral advice, practical information, and interactive lessons help students with pre-college planning, in-college financial education, and post-college debt management services. As an AMP partner, AICUP member institutions will receive a 15% aggregator discount on all SALT services.
